

ABA: 76098394

SCN

The image displays two coronal sections of a rodent brain, likely a rat, stained for the Suprachiasmatic Nucleus (SCN). The sections are positioned symmetrically on either side of a central vertical white line. The SCN is visualized as a dense, dark blue region in the center of each section. A horizontal white line is drawn across the bottom of the image, intersecting the vertical line. The text 'ABA: 76098394' is located in the top left corner, and 'SCN' is located in the bottom left corner.
