A posterior

The image displays a cross-sectional brain scan with a blue highlighted region. The scan is oriented with the anterior side at the top. A vertical white line is positioned slightly to the left of the center, and a horizontal white line is positioned slightly below the center. The blue region is located in the upper right quadrant, extending from the midline towards the right edge and from the top edge towards the horizontal line. The rest of the brain scan is dark, indicating no significant signal.
