

ABA: 77869796

CA2/CA3

A fluorescence microscopy image of a brain section, likely from a rat, showing the CA2/CA3 regions. The image is a coronal slice, with the brain tissue appearing as a bright blue structure against a black background. The CA2/CA3 regions are highlighted in a lighter blue/cyan color, indicating a specific signal or marker. The image is overlaid with a white grid consisting of a vertical line and a horizontal line, which likely serves as a reference for anatomical coordinates. The text "ABA: 77869796" is located in the top left corner, and "CA2/CA3" is located in the bottom left corner.
