

ABA: 79544822

S0

This image is an axial brain scan, likely a PET or SPECT scan, showing a cross-section of the brain. The brain tissue is represented by a blue color scale, with darker blue indicating lower activity and lighter blue indicating higher activity. A prominent focal hyperintensity (brighter blue spot) is visible in the left posterior region, corresponding to the occipital lobe. The rest of the brain shows relatively uniform, low-level activity. The image is overlaid with a white grid consisting of a vertical line and a horizontal line. The text 'ABA: 79544822' is located in the top left corner, and 'S0' is located in the bottom left corner.
