

ABA : 80342134

GP

This image is an axial brain scan, likely a PET or SPECT scan, showing a cross-section of the brain. The brain tissue is represented in shades of blue, with a central dark vertical line indicating the midline. A prominent focal area of increased activity is visible in the left hemisphere, specifically in the basal ganglia region, highlighted by a yellow and white core. The image is overlaid with a white grid consisting of a vertical line and a horizontal line. The text 'ABA : 80342134' is located in the top left corner, and 'GP' is located in the bottom left corner.
